

Greetings hunting friends

As the year goes on the hunting season reaps great rewards on some hunters, in this my 3rd newsletter for 2012, I am happy to attach some great trophy photo's from recent hunts like this 92 lbs left tusk and 87 right tusk trophy Elephant bull shot by a client from Spain in our Southern Lowveld concession on the Gonarezhou National Park last month, the park is adjoined to the Kruger in the South. This is great area for trophy Buffalo and Elephant hunts.

Also this 44 inch Buffalo shot in the same area as the Elephant and this Dande South dagga boy Buffalo, both shot by South African clients in Zimbabwe.

I shot this Eland bull on a 10 day hunt I did recently in the Northern Cape on a 40.000 hectare property an open farm, note the cattle fence in the background, these Eland move freely over these fences. We also shot this 17 inch Springbok and this trophy Steenbuck. A great plains game hunting area.

Ahead in the year I have more elephant bull hunts coming up and also a good numbers of Buffalo, Leopard and a Lion hunt all still to come.

For your all fair chase big game hunting requirements in South Africa and Zimbabwe please email me on carl@takeaimsafaris.com

Hunters best wishes.
